3. Indigestion, fullness or heaviness in chest
4. Choking feeling
5. Sweating
6. Nausea or vomiting
7. Dizziness
8. Palpations
9. Severe weakness

**If CHEST PAIN last more than 15 minutes, call 911 and DO NOT attempt to drive!**

## Stage 1: (bay 2)

10 pistol, 10 rifle, and 2+ shotgun

Procedure: The rifle is loaded with 10 rounds with hammer down, lever closed and staged on the barrel at the left. The shotgun is open, empty and staged safely. The pistols are loaded with 5 rounds each with hammer down on empty chamber and holstered.

The shooter starts standing at the barrel with his hands hanging loosely at their side and when ready says: **“It’s a pacemaker, not a peacemaker.”** At the beep, retrieve the rifle and place 1 round on R1, 2 rounds on R2, 1 round on R3, 2 rounds on R4, and 1 round on R1. Make rifle safe. With shotgun engage shotgun targets S1 and S2, in any order until all are down. Make shotgun safe. Move to barrel on the right, draw your pistols per your category, engage plate rack until all targets are down, any remaining rounds are placed on P5. If any plate rack targets remain up, now they may be made up with the shotgun. Only plates remaining up are considered misses and any misses on the P5 are misses. Retrieve long guns and move to the unloading table.

## Stage 2: (Bay 2)

10 pistol, 10 rifle, and 2+ shotgun

Procedure: The rifle is loaded with 10 rounds with hammer down, lever closed and staged on the hay bale on right. The shotgun is open, empty and staged safely. The pistols are loaded with 5 rounds each with hammer down on empty chamber and holstered.

The shooter starts standing at the right hay bale with their hands hanging loosely at their side and when ready says: **"It's a pacemaker, not a peacemaker."** At the beep, draw pistols per your category and shoot in the following order; 2 rounds on P6, 2 rounds on P7, 1 round on P6, 1 round on P7, 2 rounds on P6 and 2 rounds on P7. Make pistols safe. Retrieve the rifle and shoot rifle targets R5 and R6 by repeating the same sequence as the pistols. Make rifle safe. Move to barrel on the left and shoot shotgun targets S1 and S2, in any order until all are down. Retrieve long guns and move to the unloading table.

### Stage 3: (bay 2)

10 pistol, 10 rifle, and 6+ shotgun

Procedure: The rifle is loaded with 10 rounds with hammer down, lever closed and staged on the barrel at the left. The shotgun is open, empty and staged safely. The pistols are loaded with 5 rounds each with hammer down on empty chamber and holstered.

The shooter starts standing at the barrel at the left and when ready says: **"It's a pacemaker, not a peacemaker."** At the beep, with rifle place 1 round each on R1 thru R4, then place 2 rounds on R3 and 2 rounds on R2, then place 1 round on R1, and 1 round on R4. Make rifle safe. Draw your pistols per your category, repeat the rifle sequence on P1 thru P4. Holster pistols. Move to right barrel, with shotgun engage the plate rack till all targets are down, in any order; must fire at least 6 shots. Retrieve long guns and move to the unloading table.

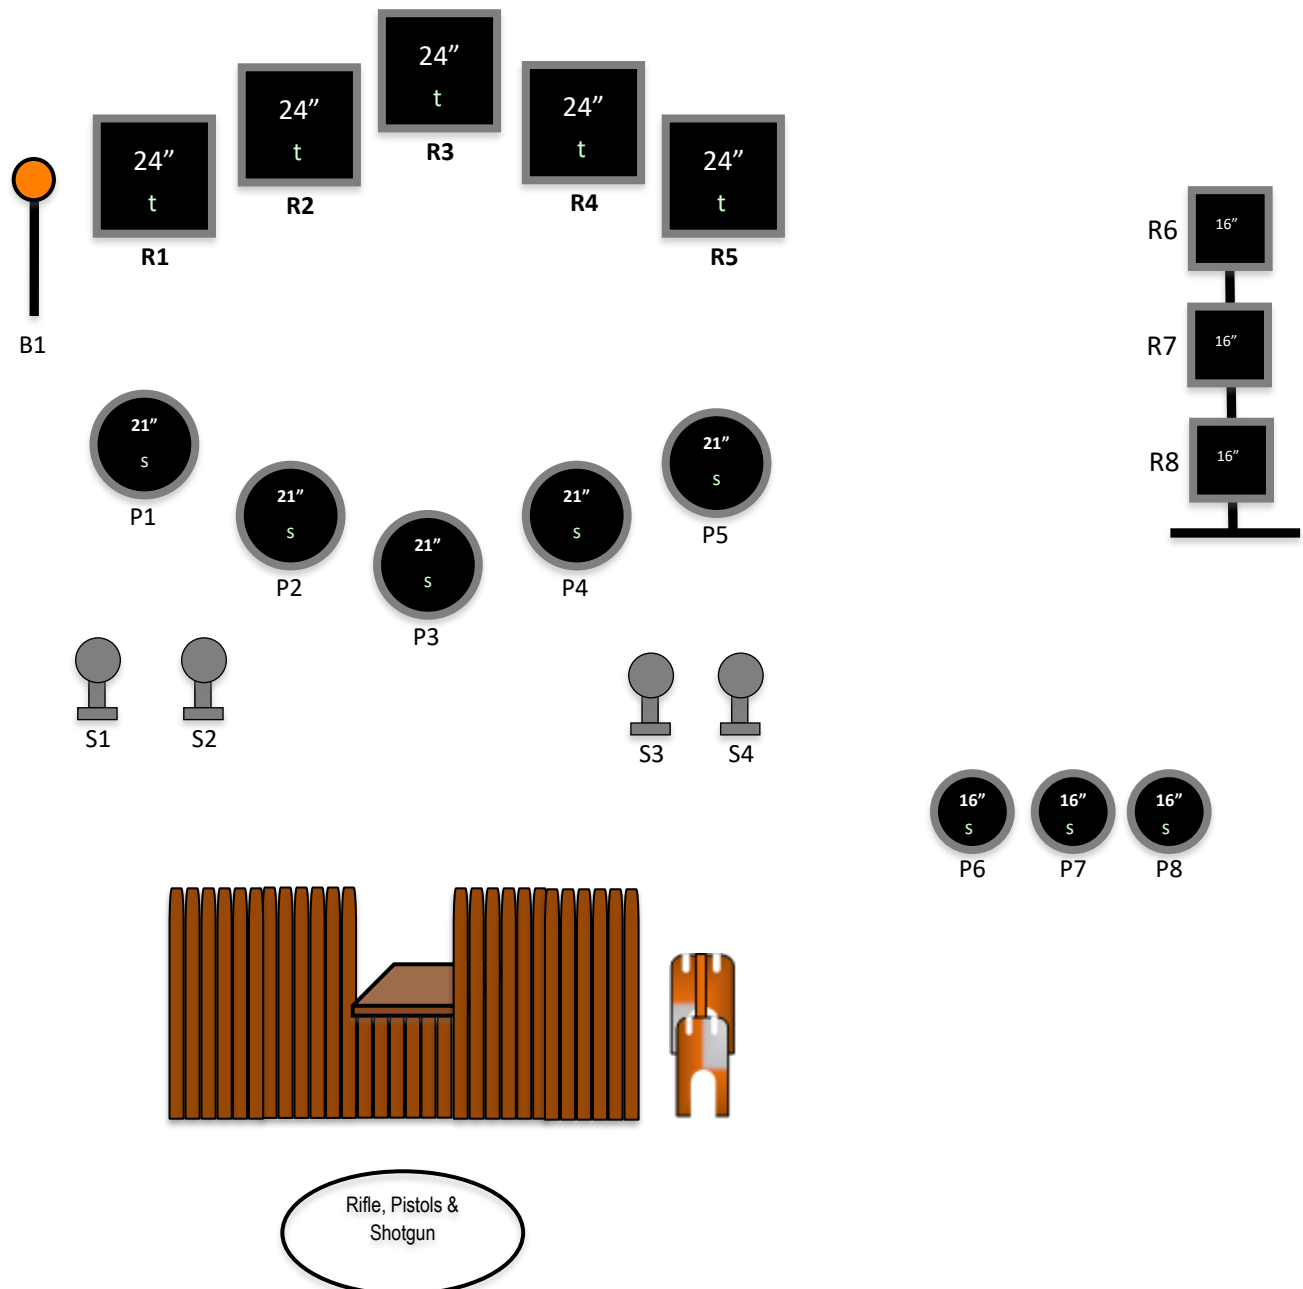

## Stage 4: (bay 3)

10 pistol, 10 + 1 rifle, and 4+ shotgun

Procedure: The rifle is loaded with 10 rounds with hammer down, lever closed and staged on the fort. The shotgun is open, empty and staged on the fort. The pistols are loaded with 5 rounds each with hammer down on empty chamber and holstered.

**Shooter has the option of start with pistol, rifle or shotgun but rifle may not be last.** This is an example and the target order to follow. The shooter starts standing at the fort window with his hands on the shotgun and when ready says: **"Cowboys have a heart of gold."** At the beep, with shotgun engage S1 – S4 in any order, all must fall. Make shotgun safe. Retrieve the rifle, engage R3 with 2 rounds, R4 with 1 round, R5 with 2 rounds, R3 with 2 rounds, R2 with 1 round, R1 with 2 rounds, then reload 1 round, hit the clay for 5 seconds bonus, must shoot but no penalty for a miss. Make rifle safe. Draw your pistols per your category and repeat the same as the rifle sequence on P1-P5. Retrieve long guns and move to the unloading table.

## Stage 5: (bay 3)

10 pistol, 10 rifle, and 4+ shotgun

Procedure: The rifle is loaded with 10 rounds with hammer down, lever closed. The shotgun is open, empty and staged on the fort. The pistols are loaded with 5 rounds each with hammer down on empty chamber and holstered.

The shooter starts standing at the fort window, you have a shooters choice of starting with pistols or rifle, and when ready says: **"Cowboys have a heart of gold."** At the beep, starting on any target, place 2 rounds on each target. Holster pistols and make rifle safe when complete with each. Retrieve the shotgun, shoot shotgun targets S1-S4 in any order; all must fall. Make shotgun safe. Retrieve long guns and move to the unloading table.

## Stage 6: (bay 3)

**Match written by: Pat Graves aka Sassy Shooting Sours**

I wanted to say I count it a blessing when I can share my professional career with you and stories of our shooters, if it helps you, we all win. I think that I win the most because you will still be here to be my friend and competitor. I have never met a group of people like SASS cowboys and cowgirls in my life. You are people that compete with each other but at the same time you are willing to help the other person when things go bad in a match or life. This is a spirit that can only be generated from the heart and soul. If we know someone with heart disease or risk for heart disease let them know that you care and you are willing to help them with that and also lend them support.

There has been such an out pouring of your support in the past years to many. Please continue with the support, prayers, friendship and love for each other; it does matter. If you know of someone with heart conditions please share today's match information.

Let's come out Sunday and support each other in love, shooting and in caring of each other.  
COWBOYS and COWGIRLS TRULY HAVE A HEART OF GOLD!!!

## – Rules and Stage Conventions

- Revised 04-24-2013 -

☐ **SASS Rules:** All SASS Rules are in affect; unless documented here, address during the Shooter Safety Meeting or specifically stated in the stage description for a given stage.

☐ **Round Over Berm:** A round fired over the berm is a Match DQ, excluding shotguns.

☐ **“No Alibi”:** All matches at Mattaponi are “no alibi” matches. *“Once the first round goes down range, the competitor is committed to the stage and must finish the stage to the best of his or her ability. Reshoots/restarts are not awarded for ammunition or firearm malfunctions. However, if there is a range failure (failure of props, timer, or the range officers) beyond the competitor’s control, a restart may be granted. On a reshoot/restart, the competitor starts over clean, carrying only accrued safety penalties forward. Restarts shall be allowed for a competitor to achieve a “clean” start up to the point at which the first round goes down range. Multiple restarts by the same shooter, that in the judgment of the R.O. are seen to be taking advantage, will not be entertained as they are not in the spirit of the game.”*

☐ **SASS Stage Conventions:** Unless specifically stated in the stage description for a given stage, all SASS Stage Conventions are in affect.

☐ **Shotgun Knockdown Misses:** Unless specifically stated in the stage description for a given stage and pursuant to SASS rules, all shotgun knockdown targets may be reengaged until down, aka “Comstock Rule”.

☐ **Loading on the Move:** Loading on the move is permitted pursuant to SASS rules.

☐ **Drawing on the Move:** Drawing on the move is permitted pursuant to SASS rules.

☐ **Muzzle Position:** When there is a risk of a prop blocking the muzzle of a firearm, the muzzle must be positioned downrange of the prop, as determined by the Range Officer. For example: shooting through the window of a store front or shooting beside a wall.

☐ **End of Stage:** Unless otherwise directed by a Range Officer, after a stage has been completed the shooter will safely retrieve rifle, shotgun, and pistols and move them to the unloading table. The shooters firearms will not leave the unloading table until they have been verified “cleared” by a Range Officer.

☐ **Coaching:** Any shooter who wishes to not receive coaching must state their preference at the beginning of each stage. The Mattaponi Sundowners strongly believe that shooters helping shooters (coaching) is a critical component of the “Cowboy Way” and part of what makes this game great!! Therefore coaching is strongly encouraged and supported.

### The Spotters Creed:

If you know that it’s a Hit...It’s a Hit

If you know that it’s a Miss...It’s a Miss

If you think it’s a Hit...It’s a Hit

If you think it’s a Miss...IT’S A HIT

Benefit of the doubt always goes to the shooter
